Nursing Assistant/Aide and Patient Care Assistant/Aide	64	63	98%	90%
All Programs Combined	687	618	90%	90%

¹ THECB = Texas Higher Education Coordination Board. THECB Standard is that 90% of students tested on a specific licensure exam pass, or the percentage of students who take licensure exams and pass is not more than 5% below state average for the last 3 years for the specific exam. THECB has not released the State Average data since 2020.

² The Division of Nursing and Allied Health calculates a rate that is consistent across programs, and is calculated by taking the unduplicated number of students who tested during the academic year, divided by the unduplicated number of students who passed during that same year.
